

PREPARATORY DEPARTMENT

OF

GEORGETOWN COLLEGE,

WILL OPEN ON THE

3D MONDAY IN SEPTEMBER NEXT.

N. B. WALLER, A. M., Principal.

THE services of Mr. Waller have been

permanently secured. He brings with

him a reputation as an accomplished and suc-

cessful instructor of youth, warranting the be-

lief that no institution can surpass this in all

that is necessary to prepare young men for

College most thoroughly or to lay the founda-

tion for a substantial and well ordered edu-

cation.

Terms per session of 6 months—in advance

Tuition in Primary Department, - - - \$10.00

Higher Branches, - - - - - 15.00

GEORGETOWN COLLEGE,

KENTUCKY.

THIS Institution occupies a high rank

among Western Colleges. Its Library,

Cabinet, Museum, and apparatus are unsur-

passed. Its literary course is the same as that

of Yale College, while its scientific course

embraces all the best portions of the course at

West Point.

For young men designed for practical busi-

ness there is a course of three years in which

a thorough knowledge is imparted in agricul-

ture, Chemistry, Physiology, Zoology, Patent

and Engineering, Principles of Commerce, and

Book Keeping. In this practical feature the

College is believed to be unequalled. Its high

aim is to furnish American scholars, and A-

merican business men. The rapidly increas-

ing number of Students in attendance is proof

of its high rank and efficiency.

This seat of learning is a metro experiment,

whose permanency is doubtful, and whose dis-

cipline is therefore of uncertain value. It is

in a position to exercise and maintain a whole-

some discipline without the fear of extinguis-

hment; and to require of its students every

thing scholarly and manly in their deportment.

It has boarding arrangements adapted to all

classes of students; and so adjusted as to

avoid the dangers inseparable from the pro-

prietorship of 150 or 200 young men in one

building. Students for the ordinary can

board for about \$40 per College year.—

Others of known good moral habits, for about

\$65 or 70; while those who may prefer board-

ing in private families can do so at from \$80

to 100. No student is allowed to board in any

family but such as the Faculty shall approve;

and a strict and kind supervision is exercised

by the faculty over every student wherever

he may board.

The academic year is divided into two

sessions. The first commences on the third

Monday in September; the second, on the first

Monday in February.

COMMENCEMENT DAY

occurs on the last Thursday in June. Tuition

\$20 per session.

The annual catalogue may be had by ap-

plication in the President, Rev. D. R. Comp-

bell, L. L. D. S. F. GANO.

or Perturbation, Yellowness of the Skin,

Pain in the Side, Back, Chest, Limbs,

Sudden Flashes of Heat burning in

the Flesh, Constant Laughing of evil, and

Great Depression of Spirits.

CAN BE EFFECTUALLY CURED BY

DR. HOFFLAND'S

CELEBRATED GERMAN BITTERS,

PREPARED BY

DR. C. M. JACKSON,

No. 120 Arch Street, Philadelphia.

Their power over the above diseases is not

excelled, if equalled, by any other prepara-

tion in the United States, as the cases attes-

tify in many cases other skillful physicians had

failed.

These Bitters are worthy the attention of in-

valids. Possessing great virtues in the treat-

ment of diseases of the Liver and lesser

glands, exercising the most searching powers

in weakness and affections of the digestive or-

gan, they are, without sale, certain and pleas-

ant.

READ AND BE CONVINCED.

B. W. Cheney, Millersburg, Ky., Oct. 16,

1852, said: "Having sold your Bitters some

time, I find it has given satisfaction in every

instance that has come under my notice."

Nelson & Edwards, Salinas, Ky., June 24,

1851, said: "We rejoice to inform you that this

justly celebrated medicine has fully main-

tained the exalted reputation which has been

given it, and having tested its virtues we unhesi-

tatingly say it eminently deserves it."

J. T. & J. W. Berry, Uniontown, Ky.,

July 24, 1852, said: "We have heard of many

cures performed by the use of Dr. Hoffland's

German Bitters, and believe it to be a valuable

medicine."

J. Grant Irvine, Ky., June 26, 62, said:

"We have succeeded in introducing your Ger-

man Bitters, physicians and others purchase

them by the half dozen and dozen."

Dr. P. F. Fatio, Knoxville, Tenn.,

April 9, 1851, said: "Your Bitters are now

selling very fast, and every person that has

used it, so far as we have been able to learn,

has been benefited."

These Bitters are ENTIRELY VEGETABLE, they

invigorate and strengthen the system, never

prostitute it, and can be used for infants as

well as adults.

For sale by respectable dealers everywhere.

Sold by T. S. BARKLEY & Co Georgetown,

and by Dealers in Medicines everywhere.

 "The most confirmed cases of the most dis-
 tressing diseases, originating either from indige-
 nity, or from cold, more or less, are invad-
 ed with this annoying symptom, still as it is
 general thing, we do not attempt to medicate
 until something serious intervenes. We
 would as a public monitor warn all our read-
 ers against the sin of neglect, and at the same
 time recommend to their notice Dr. Hoodland's
 German Bitters, the original preparation as
 reported by Dr. M. Jackson, No. 130 Arch
 street, Philadelphia. We have seen cures ef-
 fected through its influence."—Scott's Weekly

 GREAT CURE OF RHEUMATISM.—
 The Editors of the Richmond Republican of
 Dec. 24, 1852, says that Carter's Spanish Mix-
 ture is an quick medicine.
 They had a man in their press room who
 was afflicted with violent mercurial rheuma-
 tism, who was continually complaining of misery
 in the back, limbs and joints—his eyes
 closed, feverish and irritable, neck swollen
 and throat sore, and all the symptoms of
 rheumatism combined with serofula. Two
 bottles of Carter's Spanish Mixture cured him,
 and in an editorial notice as above, they bear
 testimony to its wonderful effects, and say they
 only regret is, that all suffering with diseases
 of the blood are not aware of the existence of
 such a medicine. They cheerfully recommend
 it. See their issue, and notice is full-
 around each bottle.

THE LITERARY AND ANATOMICAL LADY.
Some of the papers having mentioned that a well known lady had been "the sounds" to obtain subscriptions to a book, and after getting the money makes herself obnoxious; and the editor of the Charleston Advertiser having been honored with a call, the good man discourses as follows:

"She called to see us, and promised to send us a copy. She spread a soft, plump, white hand upon our table, before our staring eyes, and the perfume from an embroidered handkerchief which she held pleasingly, filled our nostrils. She touched us softly with vanity, spoke of the services she had received from the dear editors, invited us to call and see her daughters at the Winthrop House, and announced us over with the most delicious 'blarney.' Owing to a vacuum in our treasury, we did not pay in advance, but ever since have been waiting patiently for the advent of the book, but we learn that some of the youthful and venerable gentlemen in this vicinity did secure her pleasant smiles and a future copy after prepayment. When she left, the room continued fragrant with the aroma of her presence. The material author of so much merit has never appeared since then."

Sudden wealth leads to early ruination. If you would have a fortune do you good, you must come into it gradually. Blossoms on the north side of the fence, are less injured by frost than those on the south—not because they freeze less, but because they thaw more gradually.

Now what is true of birds, is equally true of poverty. If you don't want it to terminate injuriously, you must thaw it gradually. A man who makes a thousand dollars in a week, is very likely to die of apoplexy in a fortnight. Again we repeat that it gradually. In other words, "draw it mild."

Poor Fellow.—The editor of a country newspaper takes leave of his readers: "The sheriff is waiting for me in the next room, so we have no time to be pathetic. Major Nabem says we are wanted and must go. Delinquent subscribers, you have much to answer for. Heaven may forgive you, but I never can."

SANDS'
SARSAPARILLA.
IN QUART BOTTLES.
For Purifying the Blood, and for the Cure of
Scrofula, Rheumatism, Salted Rheum, Dyspepsia, Indigestion, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.
In this preparation all the essential properties of the root are concentrated in their utmost strength and efficacy; but while the Sarsaparilla Root forms an important part of the combination, it is at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent which gently stimulates while it disintegrates and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert salts, and of course possess no healing or curative properties, and patients in making choice of which they will use should take care, other, but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who still bearing daily testimony to its worth.

ASTONISHING CURE.
Patterson, N. Y. 20th, 1851.
Messrs. A. B. & D. Sands' Gentlemen,
Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my case. In the spring of 1848 I took a severe cold, and after eight weeks of severe suffering the disease settled in my left leg and foot, which soon swelled to such a size that I was unable to walk. My physician and discharged most profusely; after that no less than eleven leeches formed on the leg and foot at the time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed suffering the most excruciating pain. During this time the bone had become so much affected that after a few years' course, out of which he lost more than twenty-five pounds in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure.

With gratitude, I remain truly yours,
DARIUS BALLARD.
We the undersigned, neighbors of Mr. Ballard, cheerfully subscribe to the above statement.
